## ABOUT MOTIP

Whether it is about lubricating chains, assembling nuts and bolts or detecting leaks, the sprays of MOTIP are up to every problem. For decades MOTIP has been known for its excellent paints and easy to use technical sprays.

MOTIP was founded about 60 years ago by Wout Post in the Netherlands. He was trying to make some extra money by selling pots of paints and eventually ended up experimenting with pigments himself to create paint. This eventually evolved in a wide range of spray solutions to fix every problem. Chains got stuck? No problem. Marking floors? No problem. Damages to metal materials? No problem. In the wide range of Industrial RAL paints, Universal & Specialty paints, Technical Sprays, Food Grade and Marking, there is **nothing you can't fix!**

RAL ACRYL

RAL ACRYL

# RAL ACRYL

Spray surfaces of wood, metal, aluminium, glass, stone and plastic in preferred RAL colours with acryl spray paint. RAL Acryl can be used in construction areas, factories and other industrial environments. Distinguish pipes from each other or touch up parts with the desired colour to make it inclusive again. MOTIP has a wide variety of RAL colours available in spray paint and various touch-up pencils.

NOTHING YOU CAN'T FIX

RAL ACRYL 400 ML

RAL Acryl Spray Paint for professional use with high coverage. To use in construction areas, factories and other industrial enviroments. Suitable for surfaces of wood, metal, aluminium, glass, stones and various types of plastic, both treated and untreated. The paint has a lasting gloss and colour, is scratch free and shock proof and is rust preventive. MOTIP RAL Acryl Spray is non-fading, UV resistant and resistant to weather influences.

UNIVERSAL & SPECIALTY

# UNIVERSAL & SPECIALTY PAINTS

Damage can occur on all kinds of materials. MOTIP has a complete range of diverse special paints for these substrates to use in factories, construction areas and so on. From Zinc Repair to Rust Converter, fillers and sealers, MOTIP has a solution to fix any damage.

NOTHING YOU CAN'T FIX

UNIVERSAL & SPECIALTY

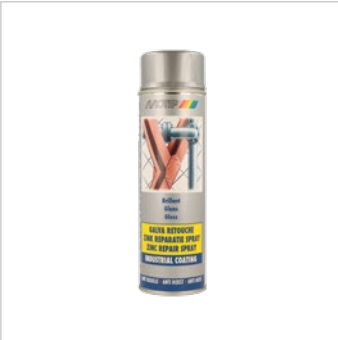

ALU ZINC SPRAY

Use Alu Zinc Spray for zinc-plated parts and surfaces, which have been damaged by welding, sanding, drilling or transportation. The Alu Zinc Spray can be used on galvanised and untreaded steel like corrugated plates. The fast drying Alu Zinc Spray has good filling properties, excellent adhesion and is for professional use. Alu Zinc Spray has outstanding cathodic corrosion prevention, is spot-weldable and is resistant to petrol, chemicals and weather influences. MOTIP Alu Zinc Spray is heat resistant to 250°C.

Description	Contents	Part No.	EAN-Code	PU
Alu Zinc spray	500 ml	07302	8711347111831	6

ZINC REPAIR SPRAY

Fast drying Zinc Repair Spray for repairing minor damage in surfaces of galvanized steel. Zinc Repair Spray can be used for doors, fittings, fences, gutters, drainpipes, crash barriers and containers in the professional area. Zinc Repair Spray has excellent adhesion, high surface hardness and is resistant to petrol, chemicals and weather influences.

Description	Contents	Part No.	EAN-Code	PU
Zinc Repair Spray	500 ml	07304	8711347124589	6

BI-CHROMATAGE SPRAY

Minor damages in surfaces of golf chromed steel can be repaired with the fast drying Bi-Chromatage Spray. The spray has good surface hardness, is non-fading and UV-resistant. MOTIP Bi-Chromatage Spray is resistant to petrol, chemicals and weather influences, is wear resistant and scratch-free.

Description	Contents	Part No.	EAN-Code	PU
Bi-Chromatage Spray	500 ml	07305	8711347174560	6

ELOXAL SPRAY

Repair anodised aluminium with the fast drying Eloxal Spray with excellent coverage for professional use. Eloxal Spray has good surface hardness and a lasting gloss and is non-fading and UV-resistant. MOTIP Eloxal Spray is resistant to chemicals and weather influences, is wear resistant and scratch free.

Description	Contents	Part No.	EAN-Code	PU
Eloxal Spray	400 ml	07403	8711347132010	6

SPRAY PUTTY

Fill small irregularities in surfaces, treated and untreated, of wood, metal and aluminium with fast drying Spray Putty. MOTIP Spray Putty has excellent filling properties and coverage for professional use. The putty can be used on 3D prints. Spray Putty has excellent adhesion and is rust preventive. MOTIP Spray Putty is easy to sand, both wet and dry [from grain 400].

Description	Contents	Part No.	EAN-Code	PU
Spray Putty beige grey	500 ml	07303	8711347111817	6

WINDOW/DOOR WHITE

Window/Door White can be used for touching up doors, frames and skirting boards. The paint is fast drying and has great coverage. For surfaces like wood, metal and plastic for as well interior use as exterior.

Description	Contents	Part No.	EAN-Code	PU
Window/Door White	400 ml	07306	8711347266692	6

ROOF PAINT

Paint roof tiles with the MOTIP Roof Paint. Colours are selected according to RR colour codes. Roof Paint has a durable UV protection. Suitable for treated and untreated surfaces of metal, wood, glass, stones, ceramics, cardboard and coated plastics.

Description	Contents	Part No.	EAN-Code	PU

\*RR codes are not connected to RAL-colour codes. RR are related to the most common roof colours.

## SEALING SPRAY

MOTIP Sealing Spray is an easy to use flexible coating to seal and fill small leaks and cracks. It maintains its flexibility even with temperature changes and is suitable to use on different substrates, such as, metal, plastic, PVC, concrete, and vinyl. Sealing Spray can be used indoor and outdoor and is therefore ideal to seal small leaks and cracks on gutters, ventilations, drains and similar. MOTIP Sealing Spray is weatherproof, UV-resistant and over-paintable with different paint systems.

- **Waterproof**
- **Flexible**
- **High filling properties**
- **Weather- and UV-resistant**
- **Over-paintable with different paint systems**
- **User-friendly**
- **For indoor and outdoor use**

**Can be used on:** gutters, sewage and drainage pipes, caravans, mobile homes, boats, roofs, windows, pool walls, pond foils, cellar shafts and ventilation shats.

**NOTHING YOU CAN'T FIX**

### SEALING SPRAY

MOTIP Sealing Spray is an easy to use flexible coating to seal and fill small leaks and cracks. It maintains its flexibility even with temperature changes and is suitable to use on different substrates, such as, metal, plastic, PVC, concrete, and vinyl. Sealing Spray can be used indoor and outdoor and is therefore ideal to seal small leaks and cracks on gutters, ventilations, drains and similar. MOTIP Sealing Spray is weatherproof, UV-resistant and over-paintable with different paint systems.

● Sealing Spray Black	500 ml	07307	8711347266999	6
● Sealing Spray Grey	500 ml	07308	8711347268948	6
○ Sealing Spray White	500 ml	07309	8711347268962	6

### SILICONE REMOVER

MOTIP Silicone Remover is essential for the effective removal of silicone, grease, oil, wax, dirt, tar and adhesive residue from surfaces to be treated. MOTIP Silicone Remover improves the adhesion to the surface and is therefore extremely suitable for use in spot repair or other purposes where professional cleaning is needed. MOTIP Silicone Remover is safe for all surfaces and leaves no residue.

Description	Contents	Part No.	EAN-Code	PU
Silicone Remover	400 ML	00187	8711347237258	6

HEAT RESISTANT

Some surfaces in machinery are exposed to very high temperatures. With the MOTIP Heat Resistant Paint these surfaces can be painted. The Heat Resistant Paint is resistant to petrol, chemicals and weather influences. Temperature resistance up to 800°C.

Description	Contents	Part No.	EAN-Code	PU
● Heat Resistant Black	400 ml	04031	8711347040315	6
● Heat Resistant Silver	400 ml	04032	8711347040322	6

EPOXY PRIMER

MOTIP Epoxy Primer is an all-purpose 1K primer that provides excellent adhesion and corrosion prevention on sheet steel, zinc-coated steel, aluminium and anodised aluminium. It can be used for spot repair, refinishing parts and for all kind of industrial uses. It is fast drying with good flow and can be applied wet-on-wet. It also offers good insulation against humidity.

Description	Contents	Part No.	EAN-Code	PU
Epoxy Primer grey	400 ml	04131	8711347266760	6

2K CLEAR COAT

MOTIP 2K Clear Coat is a high gloss, 2-component acrylic clear coat with very high resistance to petrol, UV radiation and weather influences. MOTIP 2K Clear Coat is exceedingly scratch-resistant and due its quick drying time, very good flow and easy polishing, the clear coat is particularly suitable for spot repairs. After activating the hardener inside the can, the product should be used within 24 hours. Suitable for use on surfaces such as wood, paintable plastics, metal, steel, stainless steel, aluminum, brass, copper, and even chrome.

Description	Contents	Part No.	EAN-Code	PU
2K Clear Coat high gloss	200 ml	04132	8711347266784	6

RUST CONVERTER

MOTIP Rust Converter is a rust converter and primer in one work step. Excellently suitable for the restoration of vehicles, machines and all kinds of facilities. This rust restoration system on epoxy resin basis merges with the neutralized rust layer to a metallic-organic iron complex. This black, very compact protection layer builds the primer and is the basis for the subsequent, durable lacquer finish.

Description	Contents	Part No.	EAN-Code	PU
Rust Converter	400 ml	04133	8711347266807	6

2K CLEAR COAT

How to activate the 2K Clear Coat?

1.

Remove the yellow security ring and take out the metallic ring
2.

Guide the metallic ring to the eyelet
3.

Pull hard and twist once by 360°. The blad on the inside cuts the cartridge open.
4.

After shaking vigorously, the 2K Clear Coat is ready to use.

# TECHNICAL SPRAYS

From cleaning agents and lubricants to tools for disassembly, Technical Sprays are great maintenance products. The technical Sprays are categorised in protection, lubrication, cleaning, tools and assembly.

NOTHING YOU CAN'T FIX

CABLE PROTECT

Prevent damage to the cabling and pipes by martens/small mammals with MOTIP Cable Protect. The treated surfaces take on a sticky protective film and Cable Protect can even be applied to moving parts. It has excellent adhesion, gives lasting protection, is odourless and resistant to the weather, weak acids and bases.

Description	Contents	Part No.	EAN-Code	PU
Cable Protect	500 ml	090103	8711347226405	12

SILICONE SPRAY

Protect and lubricate rubber parts against freezing, drying out and plastic parts from creaking and squeaking with MOTIP Silicone Spray. Silicone spray is water-repellent, pH-neutral and resistant to the weather and weak acids and bases. Silicone spray has outstanding mechanical and thermal stability. MOTIP Silicone Spray has a directed jet-spray and is resistant to temperatures of - 50°C up to+ 200°C.

Description	Contents	Part No.	EAN-Code	PU
Silicone Spray	500 ml	090107	8711347226481	12

ELECTRO PROTECT

Prevent starting problems caused by moisture in electrical systems with MOTIP Electro Protect. Electro Protect is water- and moisture-repellent. It is also resistant to salt, weak acids, bases and is pH neutral. MOTIP Electro Protect offers excellent adhesion and corrosion protection.

Description	Contents	Part No.	EAN-Code	PU
Electro Protect	500 ml	090108	8711347226504	12

ANTI CORROSION PRIMER

Protect steel parts and machines with MOTIP Anti-Corrosion Primer. Suitable as pre-treatment for topcoating with air drying alkyd resin varnishes. Fast-drying, lead-free red oxide primer to treat untreated surfaces of ferro-metal. Suitable as pre-treatment for respraying with air drying alkyd lacquer systems. Anti-corrosion primer has excellent coverage, filling properties and adhesion. MOTIP Anti Corrosion is weldable and easy to sand and has excellent corrosion prevention.

Description	Contents	Part No.	EAN-Code	PU
Anti Corrosion Primer	500 ml	090106	8711347226467	12

PTFE DRY

MOTIP PTFE Dry provides good lubrication and leaves a dry surface. Its very low friction factor formula makes it perfect for use on mechanisms that are regularly used such as chains, tools, drills, rails, lock mechanisms and many more applications. PTFE Dry is dry surface lubricant that removes oil and grease from metal and plastic parts. It has a very low friction factor preventing wear and sticking, offers excellent adhesion and is resistant to the weather. Suitable for parts that are subjected to light loads and low speed. It can be used as a release agent for moulds when the use of silicone is not required.

Description	Contents	Part No.	EAN-Code	PU
PTFE Dry	500 ml	090201	8711347226245	12

PTFE OIL

Restore suppleness to parts with MOTIP PTFE Oil and ensure that windshield wipers, seat belts, door locks, hinges and many more application fields to run smoothly again. PTFE Oil is a universal lubricant with outstanding mechanical and thermal stability to treat mechanical parts of metal and plastic. PTFE oil has a very low friction factor, a fine structure [particle size approximately 5 micrometer] and excellent adhesion. PTFE oil is resistant to the weather and weak acids and bases, is water-repellent and pH-neutral. PTFE oil prevents wear and sticking. MOTIP PTFE Oil is resistant to temperatures of - 50°C up to + 250°C.

Description	Contents	Part No.	EAN-Code	PU
PTFE Oil	500 ml	090203	8711347226269	12

WHITE GREASE (PTFE)

Let stuck parts, hinges, bearings, springs and many more application run smoothly again with White Grease containing PTFE. Spray Grease has excellent adhesion and high viscosity to lubricate mechanical parts of metal or plastic. White grease has outstanding mechanical and thermal stability and is resistant to the weather and weak acids and bases. White grease is water-repellent and pH neutral. White grease contains PTFE [polytetrafluorethen] and prevents wear and sticking. MOTIP White Grease is resistant to temperatures of - 30°C up to + 160°C.

Description	Contents	Part No.	EAN-Code	PU
White Grease	500 ml	090204	8711347226283	12

MULTI SPRAY

Prevent creaking and squeaking and let stuck parts run smoothly again by lubricating the parts with MOTIP Multi Spray. The Multi Spray has a cleaning effect and removes oil, grease, wax and tar. MOTIP Multi Spray is a universal oil that lubricates, protects and cleans. It offers excellent penetration, is moisture-repellent, prevents rust, and leaves a protective film.

Description	Contents	Part No.	EAN-Code	PU
Multi Spray	500 ml	090206	8711347226320	12

INDUSTRIAL CHAIN GREASE

Lubricate chain-driven transmissions which are subjected to heavy loads with MOTIP Industrial Chain Grease. Industrial chain grease can be processed like oil, with the properties of grease.

Description	Contents	Part No.	EAN-Code	PU
Industrial Chain Grease	500 ml	090205	8711347226306	12

CABLE ANTI-FRICTION SPRAY

MOTIP Cable Anti-Friction Spray facilitates pulling of cables and wires in electrical installation pipes. It prevents breaking, cracking and the clamping of the cables. Suitable for all types of cables.

Description	Contents	Part No.	EAN-Code	PU
Cable Anti-Friction Spray	500 ml	090208	8711347266715	12

INDUSTRIAL CLEANER

Remove contaminants from treated and untreated metal and various plastics with MOTIP Industrial Cleaner. Industrial Cleaner is for universal use, has high dissolving properties, leaves no residue, and is non-conductive and non-corrosive.

Description	Contents	Part No.	EAN-Code	PU
Industrial Cleaner	500 ml	090509	8711347225927	12

STAINLESS STEEL CLEANER

Clean stainless steel parts such as tubs and machines and protect them against new dirt with MOTIP Stainless Steel Cleaner. Its unique formula enables a thin protective film to be formed, which prevents the build-up of dirt.

Description	Contents	Part No.	EAN-Code	PU
Stainless Steel Cleaner	500 ml	090503	8711347225804	12

GLASS CLEANER

Clean windscreens and mirrors with MOTIP Glass Cleaner. The glass cleaner is an easy-to-use degreasing foam.

Description	Contents	Part No.	EAN-Code	PU
Glass Cleaner	500 ml	090504	8711347225880	12

MULTI FOAM

Use MOTIP Multi Foam as a universal cleaner. After use, your items will be spotless again. The cleaning foam has high dissolving properties for light dirt. Multi Foam Cleaner is user-friendly and very effective and has a subtle scent. MOTIP Multi Foam Cleaner to remove deposits of smoke, ink and grease.

Description	Contents	Part No.	EAN-Code	PU
Multi Foam 500	500 ml	090511	8711347225866	12

CITRUS CLEANER

Remove grease, tar, oil, wax, ink, resin, stickers and glue residue from treated and untreated surfaces including metal, wood, stone and various plastics with MOTIP Citrus Cleaner. The citrus spray breaks down fats and cleans easily.

Description	Contents	Part No.	EAN-Code	PU
Citrus Cleaner	500 ml	090513	8711347225941	12

BRAKE CLEANER

Easily remove dirt off your brakes with MOTIP Brake Cleaner. Brake Cleaner can be used on drum brakes, disc brakes, brake linings, calipers and brake shoes. The brake cleaner has excellent dissolving properties, leaves no residue and is non-conductive and non-corrosive. MOTIP Brake Cleaner has a powerful jet-spray and can be used in various positions.

Description	Contents	Part No.	EAN-Code	PU
Brake Cleaner	500 ml	090563	8711347225767	12
Brake Cleaner	750ml	090514	8711347236589	12

COLD DEGREASER

Clean surfaces from oil and dirt like spare parts, tools and and other greasy mechanical parts with MOTIP Cold Degreaser. Also suitable for machines, sheet metal, and bridges. It is an emulsifying cleaner to remove a-polar preservatives from treated and untreated surfaces of metal. Cold degreaser has high dissolving properties and leaves no residue. MOTIP Cold Degreaser can be rinsed with water (emulsifying) and is non-corrosive.

Description	Contents	Part No.	EAN-Code	PU
Cold Degreaser	500 ml	090501	8711347225668	12

LEAK DETECTOR

Easily find leaks in gas pipes with MOTIP Leak Detector. Leak detector is non-flammable and non-corrosive. Leak detector can be removed with water and is environmentally-friendly. Leak detector is slightly foaming and slightly basic. MOTIP Leak Detector is DVGW-certified, number NG/5170BR0105.

Description	Contents	Part No.	EAN-Code	PU
Leak Detector	400 ml	090406	8711347226047	12

CUT & DRILL LUBRICANT

Prevent overheating of metals in cutting and drilling activities with MOTIP Cut & Drill Lubricant. Cut and Drill Lubricant protects and lubricates the tool and reduces wear of the tool. MOTIP Cut and Drill Lubricant is silicone-free and non-corrosive.

Description	Contents	Part No.	EAN-Code	PU
Cut & Drill Lubricant	500 ml	090407	8711347225965	12

ANTI-WELDING SPRAY

Prevent adhesion of welding splatter to the area around the welding zone with MOTIP Anti-Welding. It is non-flammable, silicone-free, and non-corrosive. Anti-Welding offers great coverage, can be removed with water and has a misty spray pattern.

Description	Contents	Part No.	EAN-Code	PU
Anti-Welding Spray	400 ml	090404	8711347226061	12

DUST REMOVER

Remove dust and dirt from hard-to-reach places easily with MOTIP Dust Remover. It's compatible with any kind of material. MOTIP Dust Remover is composed of an ecological and 100% non-flammable gas, with a low Global Warming Potential. Useful for eliminating dust and moisture from any mechanism or part that does not allow the use of solvents. It's particularly suitable for removing dirt from precision instruments, laboratory equipment, digital camera sensors (CCD and CMOS), optical fibres, optical devices and cameras. The attached straw makes it possible to reach the most hidden areas. MOTIP Dust Remover has a powerful, directed jet-spray. Suitable for 360° use.

Description	Contents	Part No.	EAN-Code	PU
Dust Remover	250 ml	090408	8711347225743	12

FREEZER ELECTRONIC

Easily trace cracks in printed circuit boards with MOTIP Freezer Electronic. Suitable for all kinds of devices from computers and printers to control panels. MOTIP Freezer Electronic is composed of an ecological and 100% non-flammable gas, with a low Global Warming Potential. It's compatible with any kind of material. Freezer electronic can be used in various positions. MOTIP Freezer Electronic briefly decreases the temperature to - 50°C and has a directed jet-spray.

Description	Contents	Part No.	EAN-Code	PU
Freezer Electronic	360 ml	090409	8711347225682	12

PAINT REMOVER

Remove old layers of paint from surfaces of stone, concrete, asphalt, metal and wood with MOTIP Paint Remover. Paint Remover has a gel structure and is user-friendly.

Description	Contents	Part No.	EAN-Code	PU
Paint Remover	500 ml	090410	8711347225729	12

PENETRATING OIL

Loosen rusted parts with MOTIP Penetrating Oil. This oil has good penetrative properties, it contains graphite and MoS2, is moisture repellent and prevents rusting.

Description	Contents	Part No.	EAN-Code	PU
Penetrating Oil	500 ml	090303	8711347226160	12

SHOCK OIL

Loosen rusted parts with MOTIP Shock Oil. As a result of the fierce decrease in temperature to -30°C and the lubricating properties of shock oil, the screwed connection can be loosened.

Description	Contents	Part No.	EAN-Code	PU
Shock Oil	500 ml	090305	8711347226108	12

GLUE SPRAY

Use MOTIP Glue to glue paper, cardboard, wood, textiles, cork, leather and various types of plastic for both permanent and temporary adhesion.

Description	Contents	Part No.	EAN-Code	PU
Glue Spray	500 ml	090304	8711347226184	12

CERAMIC GREASE

Ceramic grease is an assembly paste and lubricating grease without metal particles. The metal-free ceramic grease is suitable for treating parts that are subject to extremely high loads and/or exposed to very high temperatures. It reduces friction of moving parts and has excellent adhesion.

Description	Contents	Part No.	EAN-Code	PU
Ceramic Grease	500 ml	090307	8711347226221	12

FREEZER

Loosen pressed connections such as crankshafts and fastening materials [screws, bolts and nuts] with MOTIP Freezer. MOTIP Freezer briefly decreases temperature to -50°C to loosen pressed connections and has a precise jet spray.

Description	Contents	Part No.	EAN-Code	PU
Freezer	500 ml	090306	8711347226207	12

CERAMIC PASTE

MOTIP Ceramic Paste is a high quality assembly paste based on ceramic particles for the long-lasting lubrication of highly stressed surfaces exposed to high temperatures and corrosive influences such as various flange and [bolt] connections. MOTIP Ceramic Paste reduces the friction of moving parts and provides effective protection against corrosion.

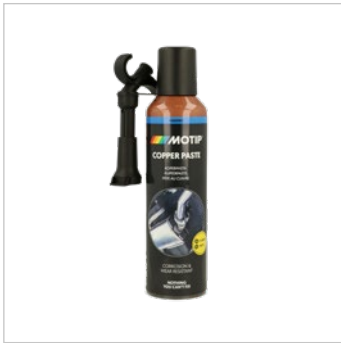

Description	Contents	Part No.	EAN-Code	PU
Ceramic Paste	200 ml	090311	8711347266623	12

ALUMINIUM PASTE

MOTIP Aluminium Paste is a high-quality assembly paste based on aluminum particles, for easy assembly and disassembly of machine parts and various threaded connections that are exposed to high temperatures and corrosive influences. MOTIP Aluminium Paste reduces the friction of moving parts and provides effective protection against corrosion.

Description	Contents	Part No.	EAN-Code	PU
Aluminium Paste	200 ML	090312	8711347266869	12

COPPER PASTE

MOTIP Copper Paste is a high-quality assembly paste based on copper particles, for lubricating parts that are exposed to high temperatures and corrosive influences, such as threaded connections, rolling and plain bearings, brake parts and compressed air tools. MOTIP Copper Paste reduces the friction of moving parts and provides effective protection against corrosion.

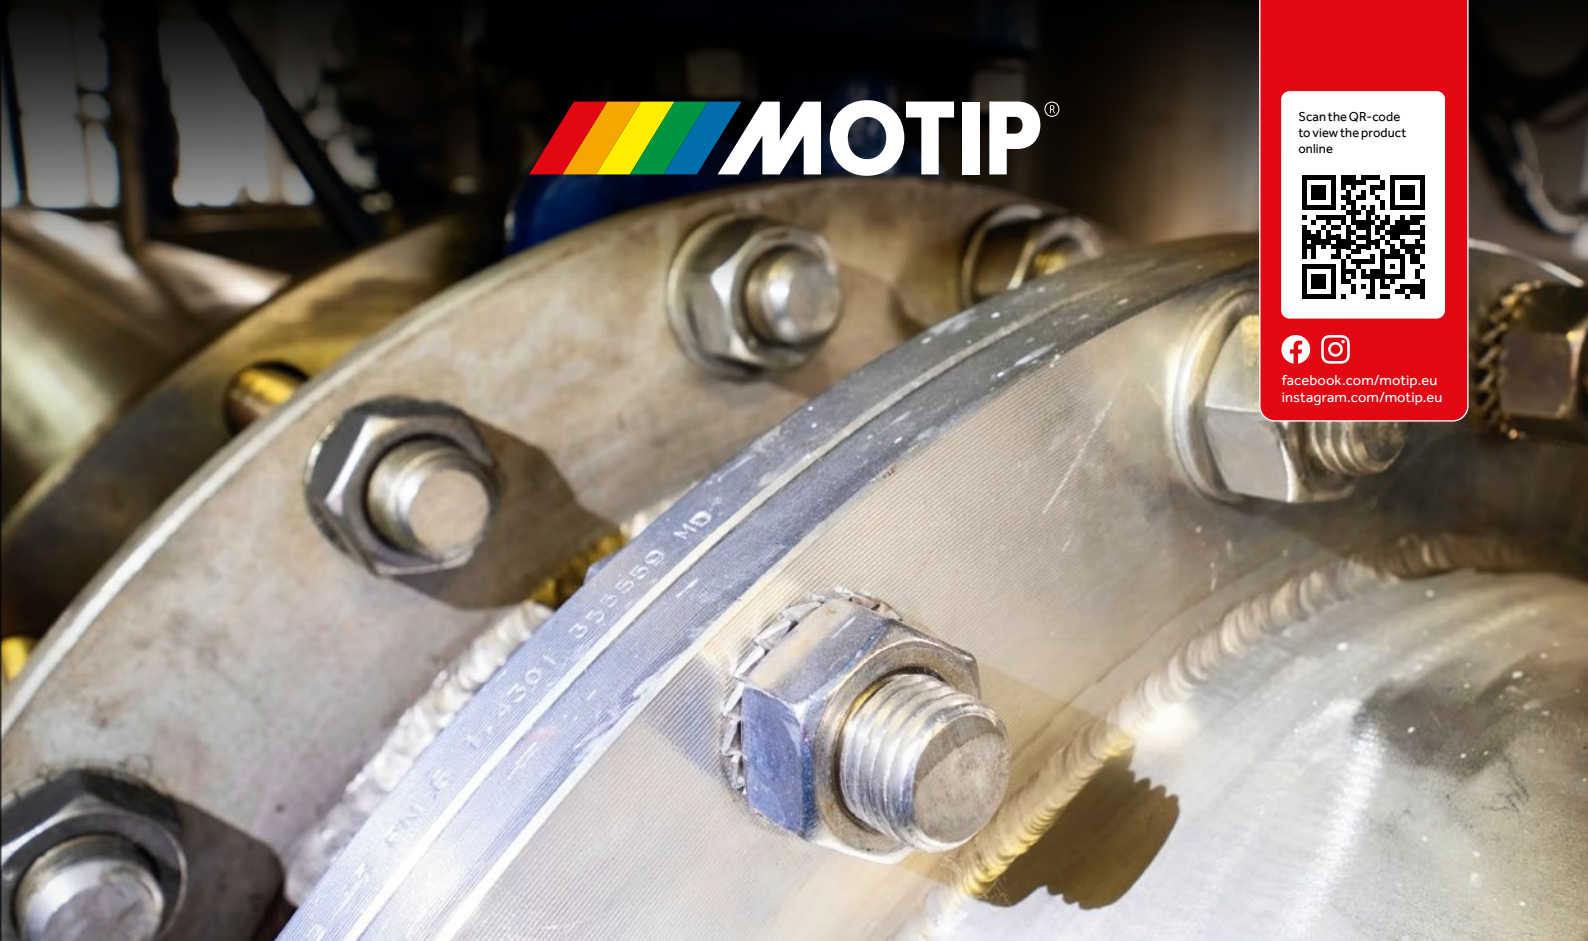

Description	Contents	Part No.	EAN-Code	PU
Copper Paste	200 ML	090313	8711347266883	12

CERAMIC PASTE

MOTIP Ceramic Paste is a high quality assembly paste based on ceramic particles for the long-lasting lubrication of highly stressed surfaces exposed to high temperatures and corrosive influences such as brake systems, brake parts, exhaust parts and various flange- and [bolt] connections. MOTIP Ceramic Paste reduces the friction of moving parts and provides effective protection against corrosion.

- ✓ Suitable for temperatures up to +1.500 °C
- ✓ Enriched with ceramic particles
- ✓ Excellent adhesion
- ✓ Reduces friction of moving parts
- ✓ User-friendly
- ✓ Free of metals
- ✓ Good corrosion protection

FOOD GRADE

FOOD GRADE

# FOOD GRADE SPRAYS

Machinery in the food industry might be in need for proper maintenance from time to time to prevent damage or malfunctions. MOTIP offers high quality maintenance products for machines and components. All the parts of the machines will run smoothly again.

NOTHING YOU CAN'T FIX

FOOD GRADE - VASELINE SPRAY

Viscous lubricant and preservative. Vaseline can be processed as grease with the lubricating properties of oil. In view of the unique formula, suitable for use in the food industry, in accordance with NSF registration H1, number 139225.

Description	Contents	Part No.	EAN-Code	PU
Food Grade - Vaseline Spray	500 ml	005010	8711347194377	12

FOOD GRADE - SILICONE OIL

Silicone oil to lubricate and protect plastic or rubber parts. Extremely suitable for treating parts which are liable to fluctuations in temperature. In view of the unique formula, suitable for use in the food industry, in accordance with NSF registration H1, number 139226.

Description	Contents	Part No.	EAN-Code	PU
Food Grade - Silicone Oil	500 ml	005020	8711347194391	12

FOOD GRADE - PTFE OIL

PTFE oil to lubricate metal and plastic mechanical parts. Extremely suitable for treating parts which are liable to heavy pressure. In view of the unique formula, suitable for use in the food industry, in accordance with NSF registration H1, number 139846.

Description	Contents	Part No.	EAN-Code	PU
Food Grade - PTFE Oil	500 ml	005030	8711347194414	12

FOOD GRADE - MACHINE OIL

Lubrication and preservative for machine parts with excellent penetrating properties. Extremely suitable as a tool to loosen rusted machine parts. In view of the unique formula, suitable for use in the food industry, in accordance with NSF registration H1, number 139847.

Description	Contents	Part No.	EAN-Code	PU
Food Grade - Machine Oil	500 ml	005040	8711347194438	12

FOOD GRADE - ULTRA OIL

Universal oil with PTFE to lubricate and protect metal and plastic parts. In view of the unique formula, suitable for use in the food industry, in accordance with NSF registration H1, number 139850.

Description	Contents	Part No.	EAN-Code	PU
Food Grade - Ultra Oil	500 ml	005050	8711347194452	12

FOOD GRADE - CHAIN OIL

Lubricant to treat chain-driven transmissions, which are liable to heavy load. In view of the unique formula, suitable for use in the food industry, in accordance with NSF registration H1 number, 139848. Chain oil can be processed like oil, with the properties of grease.

Description	Contents	Part No.	EAN-Code	PU
Food Grade - Chain Oil	500 ml	005060	8711347194476	12

FOOD GRADE - SPRAY GREASE

Spray grease with PTFE to treat metal or plastic mechanical parts. In view of the high viscosity, extremely suitable for lubricating parts, which are liable to heavy pressure. In view of the unique formula, suitable for use in the food industry, in accordance with NSF registration H1, number 139849.

Description	Contents	Part No.	EAN-Code	PU
Food Grade - Spray Grease	500 ml	005070	8711347194490	12

FOOD GRADE - MACHINE CLEANER

Cleaner to remove a-polar preservatives, like oil, grease, wax, undercoating and tar, from treated and untreated metal surfaces. In view of the unique formula, suitable for use in the food industry, in accordance with NSF registration A1, number 140010.

Description	Contents	Part No.	EAN-Code	PU
Food Grade - Machine Cleaner	500 ml	005090	8711347194537	12

# MARKING SPRAYS

For many years now, the high-quality marking concept COLORMARK has been providing sprays to meet the most challenging requirements and a range of application areas. Whether for construction site, road or event markings – COLORMARK has the right product for your desired purpose.

2K LINEMARKER

2K Linemarker for professional lines. When painted lines need to meet the highest standards, this highly pigmented special paint with patented 2-component technology comes into its own. Due to the chemical drying, chemical cross-linking of the base paint and the hardener occurs, which results in hard-wearing surfaces. After drying, the markings are resistant to solvents.

Description	Contents	Part No.	EAN-Code	PU
2K Linemarker white	500 ml	387043	4048500387043	12
2K Linemarker yellow	500 ml	387081	4048500387081	12

LINEMARKER

Line and surface marking for many different uses. Highly pigmented special paint with high resistance to light and weather. The Linemarker is absolutely perfect for permanent marking works in, among other places, workshops, warehouses, open spaces and industrial facilities, but also on playgrounds and sports grounds. Wherever good wear resistance and lasting visibility are required.

Description	Contents	Part No.	EAN-Code	PU
Linemarker black	500 ml	201707	4048500201707	12
Linemarker grey	500 ml	201691	4048500201691	12
Linemarker white	500 ml	201639	4048500201639	12
Linemarker yellow	500 ml	201646	4048500369582	12
Linemarker traffic yellow	500 ml	415333	4048500415333	12
Linemarker Protection clear coat	500 ml	369582	4048500369582	12
Linemarker black	750 ml	201783	4048500201783	6
Linemarker grey	750 ml	201776	4048500201776	6
Linemarker white	750 ml	201714	4048500201714	6
Linemarker yellow	750 ml	201721	4048500201721	6
Linemarker traffic yellow	750 ml	346156	4048500346156	6

ECOMARKER

Chalk-based marking. The special chalk-based formula makes the Ecomarker an especially environmentally friendly marking spray. Due to ingredients that are not harmful to plants, the marked objects are not damaged. Thanks to being chalk-based, The markings are easy to remove with water. After sustained rainfall or heavy mechanical stress, reapplication may be necessary.

Description	Contents	Part No.	EAN-Code	PU
Ecomarker orange	500 ml	231209	4048500231209	12
Ecomarker white	500 ml	230790	4048500230790	12
Ecomarker red	500 ml	230813	4048500230813	12
Ecomarker yellow	500 ml	230806	4048500230806	12

SPOTMARKER

The highest visibility levels, for greater safety. The Fluo Spotmarker's ideal usage conditions are anywhere where increased visibility is required, even under the most challenging working conditions. Due to the increased proportion of fluorescent paint components, the sprays are easily noticed and are irreplaceable for structural and civil engineering works and road construction, as well as surveying works carried out by municipalities or industry.

Description	Contents	Part No.	EAN-Code	PU
Spotmarker Fluo neon yellow	500 ml	201509	4048500201509	12
Spotmarker Fluo neon red	500 ml	201486	4048500201486	12
Spotmarker Fluo neon orange	500 ml	201493	4048500201493	12
Spotmarker Fluo neon blue	500 ml	201523	4048500201523	12
Spotmarker Fluo neon pink	500 ml	201479	4048500201479	12
Spotmarker Fluo neon green	500 ml	201516	4048500201516	12

ALLROUNDMARKER

Inscription made easy thanks to its writing spray head with safety cap, the Allroundmarker special marking spray is perfect for precise inscriptions. The 360° valve enables spraying in all positions and directions. An outstanding marking tool for tunnel construction, electricians, municipalities, industry and for countless other applications.

Description	Contents	Part No.	EAN-Code	PU
Allroundmarker Fluo neon orange	500 ml	201608	4048500201608	12
Allroundmarker Fluo neon pink	500 ml	201585	4048500201585	12
Allroundmarker Fluo neon yellow	500 ml	201615	4048500201615	12
Allroundmarker Fluo neon red	500 ml	201592	4048500201592	12
Allroundmarker Fluo neon green	500 ml	257650	4048500257650	12
Allroundmarker Fluo neon blue	500 ml	201622	4048500201622	12
Allroundmarker black	500 ml	278280	4048500278280	12
